Re: Amendment
Wastewater Treatment Facility Land Acquisition

Dear Andrew,

Stockwell Engineers, Inc. (Stockwell) appreciates the opportunity to add civil design services to evaluate and prepare preliminary opinions of estimated construction costs of four sites with discharge to the Big Sioux River for the following options in lieu of total retention and SAGR. Stockwell will also prepare preliminary size opinion (mechanical treatment footprint) based on information know at the time. The extent and level of service provided by Stockwell staff will remain the same as outlined in our March 18, 2015 proposal.

- Extended aeration.
- SBR (sequencing batch reactor).
- Traditional biological treatment plant.
- Pump to Sioux Falls.

Stockwell will bill professional fees for this amendment on a lump sum basis at a fee of \$89,500.00. This fee will be in addition to our current contract amount of \$42,500.00.

Please do not hesitate to contact our office if you have any questions.

Respectfully submitted,

STOCKWELL ENGINEERS, INC.

Jon Brown, P.E.
