Departments ► Engineering ► Engineering Documents ► Application for Private Utility Permit: ● Expanded List of Coinditions ● Check List

Construction Plan of proposed work is required and must indicate the following items: pipe diameter/number of pipe installing, method of installation, approximate footage (by sections), approximate construction timeline, and what subcontractors or co-applicants will be installed at the same time.

I, the undersigned request permission to construct and maintain a utility facility on public right-of-way at the location shown on the attached construction plan and in accordance with any provisions and conditions attached to the project agree to abide by all said rules, conditions, and in addition, the following:

1. To restore any damaged portions of the roadway and right-of-way to equal or better conditions that existed prior to beginning work covered by this permit, including property pins and their correct location.
2. To maintain areas that are disturbed as a result of this project for one year after completion of the project (fix any soil compaction, washout, etc.).
3. To provide protection to highway traffic during construction and maintenance by the use of proper signs, barricades, flag persons, and lights as prescribed in the Manual on Uniform Traffic Control Devices.
4. To indemnify, hold and save harmless the City of Harrisburg and its employees, for any and all suits, actions or claims of any kind or nature brought because of any injuries or damage received or sustained by any person or property on account of the use or occupancy of public right-of-way designated in this application.
